

American Academy  
of  
Orthopaedic Surgeons

Symposium on  
**Microsurgery**  
practical use in  
orthopaedics

# Contents

- 1 A perspective of microsurgical concepts in orthopaedic surgery, 1  
J. Leonard Goldner
- 2 A history of microsurgery, 6  
Richard H. Gelberman
- 3 The microsurgery laboratory, 12  
Craig R. Stirrat  
Anthony V. Seaber
- 4 Techniques of microsurgery, 40  
Donald S. Bright
- 5 Replantation of amputated parts—technique, results, and indications, 64  
James R. Urbaniak
- 6 Postoperative management in replantation, 83  
Donald S. Bright  
Sydney Wright
- 7 Management of bone in microvascular surgery, 96  
Michael George Hayes  
James R. Urbaniak
- 8 Vascular defects and salvage of failed vascular repairs, 111  
Jack W. Tupper
- 9 Thrombosis of ulnar artery at the wrist, 119  
L. Andrew Koman  
James R. Urbaniak  
General discussion, 132
- 10 Microsurgery in the anterior approach to the cervical spine, 140  
Richard S. Kramer

- 11** Microneurosurgery, 146  
Robert H. Wilkins
- 12** Microsurgery and the technique of lumbar laminectomy, 153  
Richard H. Rothman  
General discussion, 166
- 13** Internal neurolysis, 170  
E. F. Shaw Wilgis
- 14** Application of microsurgical techniques in the care of the injured peripheral nerve, 176  
James R. Urbaniak  
Fredric H. Warren
- 15** Nerve grafts to the brachial plexus, 192  
E. F. Shaw Wilgis  
General discussion, 196
- 16** Electrophysiology of nerves, 200  
Donald S. Bright  
Roni Sehayik
- 17** Fascicular nerve repair, 215  
Jack W. Tupper
- 18** Toe-to-hand transfer, 227  
Joseph E. Kutz  
Cathy B. Thomson  
Howard W. Klein
- 19** Free vascularized bone grafts, 254  
Joseph E. Kutz  
Cathy B. Thomson
- 20** Microvascular free groin flaps, 279  
James B. Steichen  
General discussion, 305
- 21** Use of electromagnetic flowmeters in experimental microvascular surgery, 310  
Barry S. Schonwetter  
Anthony V. Seaber  
James R. Urbaniak  
Donald S. Bright

**22** Experimental microlymphatic surgery, 325

Anthony V. Seaber  
James R. Urbaniak  
Hiroo Hiramatsu

**23** Concepts of peripheral nerve repair with emphasis on management of small and large nerve gaps, 348

J. Leonard Goldner  
General discussion, 371
