

MICROSURGICAL  
COMPOSITE  
TISSUE  
TRANSPLANTATION

---

Edited by

Harry J. Buncke, Jr.

# CONTENTS

## PART ONE BASIC SCIENCE

### SECTION ONE Basic concepts in microanatomy and physiology

- 1 Microsurgical composite tissue transplantation: a retrospective review, 3  
Nicholas G. Georgiade and Gregory S. Georgiade
- 2 Anatomy of the microcirculation, 17  
Walter N. Durán and Thomas H. Marsicano
- 3 Microcirculatory hemodynamics, 31  
Walter N. Durán
- 4 Metabolic consequences of ischemia and hypoxia: effects on transplant survival, 47  
Frans F. Jöbsis, J. Barry Boyd, and William J. Barwick
- 5 Intravascular coagulation: mechanisms and their alteration in microvascular surgery, 66  
Wallace H. J. Chang
- 6 Factors that influence success in microvascular surgery, 76  
Robert D. Acland

### SECTION TWO Experimental procedures

- 7 Experimental microvascular autografts, 83  
Ueli Büchler and Harry J. Buncke, Jr.
- 8 Long-term fate of autologous vein grafts, 90  
James C. A. Fuchs and Per-Otto Hagen
- 9 Microsurgical anastomosis: vessel injury, regeneration, and repair, 111  
Philip R. Weinstein, H. Maximilian Mehdorn, and Zoltan Szabo
- 10 Delay phenomenon, 145  
Bert Myers
- 11 Microsurgical laboratory, 154  
Harry J. Buncke, Jr., Norman Chater, and Zoltan Szabo

- 12 Experimental microvascular procedures, 164  
Takao Harashina and Toyomi Fujino
- 13 Experimental neuromuscular transplantation, 175  
Susumu Tamai
- 14 Optical monitoring as a research and clinical method to assess tissue metabolism and blood flow, 191  
Frans F. Jöbsis, William J. Barwick, and J. Barry Boyd
- 15 Assessment of viability in transplanted tissue: electromagnetic flowmeter, 208  
Richard L. Morris, Edward P. Polack, and Donald Serafin
- 16 Assessment of viability in transplanted tissue: Doppler techniques using acoustic (ultrasound) and optical (laser) techniques, 215  
Donald W. Baker and G. Allen Holloway, Jr.

## **PART TWO DONOR COMPOSITE TISSUE**

### **SECTION ONE Cutaneous tissue**

- 17 Groin flap, 231  
Ian T. Jackson
- 18 Deltopectoral flap, 244  
Kiyonori Harii
- 19 Dorsalis pedis flap, 257  
David W. Robinson
- 20 Neurovascular free flaps, 285  
Rollin K. Daniel, Julia K. Terzis, and James W. May, Jr.
- 21 Axillary flap, 317  
Jacques Baudet, Jean-François Garbe, Jean-Claude Guimberteau, and Jean-Marie Lemaire
- 22 Other arterial flaps, 336  
Leonard A. Sharzer, Richard V. Dowden, and John B. McCraw
- 23 The foot: a versatile source of donor tissue, 345  
Berish Strauch and Bruce B. Shafiroff

### **SECTION TWO Gastrointestinal tissue**

- 24 Free intestinal transplantation for esophageal reconstruction, 357  
Robert D. Acland and Michael B. Flynn
- 25 Omental transplantation, 361  
Yoshikazu Ikuta

### **SECTION THREE Muscle tissue**

- 26 Muscle transplantation, 369  
Ralph T. Manktelow

### **SECTION FOUR Osteocutaneous tissue**

- 27 Osteocutaneous transplantation: iliac osteocutaneous neurosensory flap, 391  
Susumu Tamai
- 28 Osteocutaneous transplantation: intercostal flap, 398  
Donald Serafin, Harry J. Buncke, Jr., and Edward P. Polack

### **SECTION FIVE Osseous tissue**

- 29 Fibular transplantation, 418  
G. Ian Taylor
- 30 Rib transplantation, 424  
Leif T. Östrup

## **PART THREE RECONSTRUCTION**

### **SECTION ONE Reconstruction of the head and neck**

- 31 Mandible reconstruction: vascularized rib-periosteal transplantation, 439  
Donald Serafin and Ronald Riefkohl
- 32 Facial animation with nonvascularized muscle transplantation, 460  
Leo Clodius
- 33 Vascularized muscle transfer for treatment of facial paralysis, 468  
Kiyonori Harii
- 34 Reconstruction of the hypopharynx and cervical esophagus with a microvascular jejunal transplant, 484  
Duncan M. McKee and Calvin R. Peters
- 35 Versatility of composite tissue transplantation in soft tissue reconstruction of the head and neck, 496  
Donald Serafin and Alfredo Villarreal-Rios
- 36 Composite tissue reconstruction of the head and neck following malignancy, 518  
Donald Serafin and J. Connell Shearin, Jr.
- 37 Intraoral composite tissue reconstruction, 535  
Leonard A. Sharzer

## **SECTION TWO Reconstruction of the thorax and breast**

- 38** Reconstruction of the thorax and breast following radical mastectomy, 541  
**Donald Serafin and Kenna S. Given**

## **SECTION THREE Reconstruction of the upper extremity**

- 39** Toe-digital transfers, 573  
**Harry J. Buncke, Jr., and K. G. Shah**
- 40** Skeletal muscle transplantation in the severely injured upper extremity, 587  
**Yoshikazu Ikuta**
- 41** Vascularized bone grafts in the upper extremity, 605  
**Andrew J. Weiland, Harold E. Kleinert, Joseph E. Kutz, and Rollin K. Daniel**
- 42** Free composite tissue transfer in the upper extremity: a comparison with existing methods, 626  
**Leonard A. Sharzer, David T. Barker, and Jerome E. Adamson**
- 43** Versatility of composite tissue transplantation in soft tissue reconstruction of the upper extremity, 636  
**Kitaro Ohmori**
- 44** Microlymphatic surgery, 654  
**Avron Daniller**
- 45** Vascularized nerve transfer, 669  
**G. Ian Taylor**
- 46** Reconstruction of the upper extremity, 679  
**Donald Serafin and Hans P. Norberg**

## **SECTION FOUR Reconstruction of the lower extremity**

- 47** Vascularized osseous transplantation for reconstruction of the tibia, 713  
**G. Ian Taylor, Harry J. Buncke, Jr., Neil Watson, and William Murray**
- 48** Composite tissue transplantation in soft tissue reconstruction of the lower extremity, 743  
**Donald Serafin and David H. Smith**
- Looking ahead, 772  
**Harry J. Buncke, Jr., and Donald Serafin**
