

The background of the cover is a close-up photograph of a hand holding a carpal bone. The lighting is dramatic, with strong blue and green highlights, creating a clinical and scientific atmosphere. The hand is positioned on the right side of the frame, with fingers slightly curled around the bone.

PATOLOGÍA DEL ESCAFOIDES CARPIANO

On the left side of the cover, there is a vertical column of three circular diagrams. Each diagram shows a different view or aspect of the scaphoid bone, possibly illustrating different anatomical features or pathological changes. The top diagram has a blue and orange color scheme, the middle one is mostly yellow and orange, and the bottom one has a green and purple color scheme. The circles are semi-transparent and overlap slightly.
