

RECOGNIZABLE  
PATTERNS OF HUMAN  
MALFORMATION

*Volume 11 in the Series*  
MAJOR PROBLEMS IN  
CLINICAL PEDIATRICS

SMITH

# Contents

INTRODUCTION .....	1
Chapter One	
SINGLE SYNDROMIC MALFORMATIONS resulting in secondary defects .....	2
Chapter Two	
DYSMORPHIC SYNDROMES of multiple primary defects .....	18
General Comments Concerning Specific Defects and Patterns of Anomaly .....	18
Method and Utility of Presentation of the Syndromes .....	19
Alphabetical Listing of Syndromes .....	20
Summary Tables .....	22
Dysmorphic Syndromes .....	33
A. Chromosomal Abnormality Syndromes .....	33
1. Down's Syndrome .....	33
2. XXXXY Syndrome .....	36
3. 18 Trisomy Syndrome .....	38
4. 13 Trisomy Syndrome .....	42
5. Chromosome Number 4 Short Arm Deletion Syndrome .....	46
6. Cri-du-Chat Syndrome .....	48
7. Long Arm 18 Deletion Syndrome .....	50
8. Long Arm "21" Deletion Syndrome .....	52
9. Coloboma of Iris and Anal Atresia Syndrome .....	54
10. Penta-X Syndrome .....	56
11. XO Syndrome .....	57
12. Turner-Like Syndrome (insert) .....	60
B. Unusually Small Stature with Associated Defects .....	62
13. Cornelia de Lange Syndrome .....	62
14. Rubinstein-Taybi Syndrome .....	64
15. Silver's Syndrome .....	66
16. Bloom's Syndrome .....	68
17. Seckel's Syndrome .....	70
18. Hallerman-Streiff Syndrome .....	72
C. Senile-Like Appearance with Associated Defects .....	74
19. Progeria .....	74
20. Werner's Syndrome .....	76
21. Cockayne's Syndrome .....	78
D. Joint Dysplasia with Associated Defects .....	80
22. Familial Dwarfism and Stiff Joints .....	80
23. Leri's Pleonosteosis .....	82
24. Stickler's Syndrome .....	84
25. Laurence-Moon-Biedl Syndrome (insert) .....	86

E. Muscular Disorders with Associated Defects .....	88
26. Prader-Willi Syndrome .....	88
27. Larsen's Syndrome (insert) .....	90
28. Cerebro-Hepato-Renal Syndrome .....	92
29. Oculo-Cerebro-Renal Syndrome of Lowe .....	94
30. Rieger's Syndrome .....	95
31. Steinert's Syndrome .....	96
32. Freeman-Sheldon Syndrome .....	98
33. Schwartz's Syndrome .....	100
F. Neurological Disorders Other Than Mental Deficiency with Associated Defects .....	102
34. Marinesco-Sjogren Syndrome .....	102
35. Biemond's Syndrome .....	103
36. Ataxia-Telangiectasia .....	104
37. Sjogren-Larsson Syndrome .....	106
38. Menkes' Syndrome .....	108
G. Facial Defects as Predominant Features .....	110
39. Treacher Collins Syndrome .....	110
40. Goldenhar's Syndrome .....	112
41. Familial Blepharophimosis .....	114
42. Lower Lip Fistulas with or without Cleft Lip, Cleft Palate, or Both .....	116
43. Popliteal Web Syndrome (insert) .....	118
H. Oral-Facial-Digital Associations of Defects .....	120
44. Oral-Facial-Digital (OFD) Syndrome .....	120
45. Mohr Syndrome .....	122
46. Mietens' Syndrome .....	124
47. Oculodentodigital Syndrome .....	126
48. Oto-Palato-Digital Syndrome .....	128
I. Hematopoietic Disorders with Associated Defects .....	130
49. Fanconi's Syndrome of Pancytopenia and Multiple Anomalies .....	130
50. Radial Aplasia-Thrombocytopenia .....	132
51. Holt-Oram Syndrome (insert) .....	134
J. Genital Anomalies with Associated Defects .....	136
52. Smith-Lemli-Opitz Syndrome .....	136
53. Fraser Syndrome .....	138
54. Hypertelorism-Hypospadias Syndrome .....	140
K. Deafness with Associated Defects .....	142
55. Waardenburg's Syndrome .....	142
56. Rubella Syndrome .....	144
L. Presumed Metabolic Aberrations Affecting Morphogenesis .....	146
57. Leprechaunism .....	146
58. Berardinelli's Lipodystrophy Syndrome .....	148
59. Infantile Hypercalcemia, Peculiar Facies, Supravalvular Aortic Stenosis .....	150
60. Wiedemann-Beckwith Syndrome .....	152
61. Cerebral Gigantism .....	154
M. Hamartoses .....	156
62. Sturge-Weber Syndrome .....	156
63. Von Hippel-Lindau Syndrome .....	158
64. Riley's Syndrome .....	158
65. Maffucci's Syndrome .....	160
66. Tuberous Sclerosis .....	160
67. Neurofibromatosis .....	162
68. McCune-Albright Syndrome .....	164
69. Peutz-Jeghers Syndrome .....	166
70. Gardner's Syndrome .....	168
71. Basal Cell Nevus (Carcinoma) Syndrome .....	168
72. Goltz's Syndrome .....	170
73. Incontinentia Pigmenti .....	172
74. Dyskeratosis Congenita Syndrome .....	174
75. Rothmund Syndrome .....	176

N.	Ectodermal Dysplasias .....	178
	76. Hypohidrotic Ectodermal Dysplasia .....	178
	77. Marshall's Type of Ectodermal Dysplasia .....	180
	78. Robinson-type Ectodermal Dysplasia .....	181
	79. Feinmesser-type Ectodermal Dysplasia .....	181
	80. Pili Torti and Deafness .....	181
	81. Clouston-type Ectodermal Dysplasia .....	182
	82. Basan-type Ectodermal Dysplasia .....	182
	83. Enamel Hypoplasia and Curly Hair .....	182
	84. Pachyonychia Congenita (insert) .....	184
O.	Osteochondrodysplasias .....	186
	85. Achondroplasia .....	186
	86. Metatrophic Dwarfism .....	188
	87. Thoracic Asphyxiant Dystrophy .....	190
	88. Ellis-van Creveld Syndrome .....	192
	89. Diastrophic Nanism .....	194
	90. Pseudoachondroplastic Form of Spondyloepiphyseal Dysplasia .....	196
	91. X-linked Spondyloepiphyseal Dysplasia .....	198
	92. Multiple Epiphyseal Dysplasia .....	200
	93. Metaphyseal Dysostosis, Jansen-type .....	202
	94. Metaphyseal Dysostosis, Schmid-type .....	202
	95. Cartilage-Hair Hypoplasia .....	204
	96. X-linked Hypophosphatemic Rickets .....	206
	97. Multiple Exostoses .....	208
	98. Conradi's Disease .....	210
	99. Hypophosphatasia .....	212
	100. Kenny's Syndrome .....	214
P.	Osteopetroses .....	216
	101. Pyle's Disease .....	216
	102. Severe Osteopetrosis .....	218
	103. Pyknodysostosis of Maroteaux and Lamy .....	220
	104. Cleidocranial Dysostosis .....	222
	105. Stanesco's Dysostosis Syndrome .....	224
Q.	Craniosynostoses .....	226
	106. Apert's Syndrome .....	226
	107. Carpenter's Syndrome .....	228
	108. Craniofacial Dysostosis of Crouzon .....	230
R.	Other Skeletal Dysplasias .....	232
	109. Aminopterin-Induced Syndrome .....	232
	110. Nail-Patella Syndrome .....	234
	111. Dyschondrosteosis of Leri-Weill .....	236
	112. Albright's Hereditary Osteodystrophy .....	238
	113. Brachydactyly, Type E .....	240
	114. Weill-Marchesani Syndrome .....	240
S.	Mucopolysaccharidoses .....	242
	115. Generalized Gangliosidosis .....	242
	116. Hurler's Syndrome .....	244
	117. Maroteaux-Lamy Syndrome .....	246
	118. Hunter's Syndrome .....	248
	119. Morquio's Syndrome .....	250
	120. Sanfilippo's Syndrome .....	252
	121. Scheie's Syndrome .....	254
	122. Leroy's Syndrome (insert) .....	256
T.	Connective Tissue Disorders .....	258
	123. Marfan's Syndrome .....	258
	124. Homocystinuria .....	260
	125. Ehlers-Danlos Syndrome .....	262
	126. Osteogenesis Imperfecta .....	264
	127. Fibrodysplasia Ossificans Congenita .....	266
	128. Pseudoxanthoma Elasticum .....	268
U.	Miscellaneous Syndromes .....	270
	129. X-linked Hydrocephalus .....	270

130. Fabry's Disease .....	272
131. Osler's Hemorrhagic Telangiectasia .....	274
132. Riley-Day Syndrome .....	274
133. Schwachman's Syndrome .....	275
134. Wiskott-Aldrich Syndrome .....	276
135. Chediak-Higashi Syndrome .....	276
Individual Anomalies as Features of Particular Syndromes .....	278
1. Cranium .....	278
2. Ocular Region .....	279
3. Eye .....	280
4. Nose .....	281
5. Facies .....	282
6. Maxilla and Mandible .....	282
7. Oral Region .....	283
8. Mouth .....	284
9. External Ears .....	284
10. Neck, Thorax, and Vertebrae .....	285
11. Limbs .....	286
12. Limbs; Nails, Creases, Dermatoglyphics .....	287
13. Limbs; Joint Anomalies .....	288
14. Skin and Hair .....	289
15. Central Nervous System .....	290
16. Deafness .....	290
17. Cardiac Anomaly .....	290
18. Abdominal Anomaly .....	291
19. Renal Anomalies .....	291
20. Genital Anomalies .....	291
21. Endocrine and Metabolic Dysfunction .....	292
22. Hematology-Oncology .....	293

### Chapter Three

MORPHOGENESIS .....	295
Normal Morphogenesis .....	295
General Morphogenesis .....	297
Examples of Morphogenesis of Specific Structures .....	303
Morphogenesis of Lens and Eye .....	303
Morphogenesis of the Kidney .....	305
Limb Morphogenesis .....	307
Thyroid Morphogenesis .....	309
Pituitary Morphogenesis .....	311
Abnormal Morphogenesis .....	313

### Chapter Four

GENETICS AND GENETIC COUNSELING relative to single primary defects and dysmorphic syndromes of multiple primary defect .....	316
Polygenic Inheritance as a Major Factor in the Etiology of Common Single Primary Malformations .....	316
Mendelian Type Inheritance of Mutant Genes .....	320
Charts for Genetic Counsel Regarding Mutant Gene Disorders .....	323
Genetic Imbalance Due to Gross Chromosomal Abnormalities .....	329

### Chapter Five

MINOR MALFORMATIONS as clues to more serious problems and toward the recognition of malformation syndromes .....	337
1. Ocular Region .....	338
2. Auricular Area .....	339

3. Hand—Creases, Nails .....	340
4. Dermal Ridge Patterns .....	341
5. Feet.....	344
6. Skin and Hair.....	345
7. Mouth, Thorax and Genitalia.....	346
8. Minor Variants in the Newborn Which Should <i>Not</i> Be Classed as Anomalies .....	347
9. Minor Variants in the Newborn Which Should <i>Not</i> Be Classed as Minor Anomalies .....	348
APPENDICES.....	350
<i>Appendix A</i> —Outline of History and Physical Evaluation for Patients with Malformations.....	350
<i>Appendix B</i> —Percentile Charts for Measurements of Children.....	352
<i>Appendix C</i> —Head Circumferences.....	356
<i>Appendix D</i> —Prenatal Measurements.....	357
<i>Appendix E</i> —Tables of Inner Canthal and Outer Orbital Dimensions.....	358
<i>Appendix F</i> —Interpupillary and Palpebral Width Measurements.....	359
<i>Appendix G</i> —Auricular Length and Anatomy of Auricle.....	360
<i>Appendix H</i> —Methods of Recording Dermatoglyphics.....	361
INDEX.....	363
