

# Ultrastructure of the Peripheral Nervous System and Sense Organs

Atlas of Normal and Pathologic Anatomy

By

**Jean Babel**  
**Albert Bischoff**  
**Heinrich Spoendlin**

Edited by

**Albert Bischoff**

203 illustrations

**Georg Thieme Verlag Stuttgart**

# Contents

Preface . . . . .	V	Elastic Fibers . . . . .	94
General Introduction . . . . .	1	Myxomatous Degeneration . . . . .	96
<b>Peripheral Nervous System</b>		<b>C. Special Histopathology . . . . .</b>	<b>99</b>
by A. Bischoff		Diabetic Neuropathy . . . . .	100
Introduction . . . . .	3	Alcoholic Neuropathy . . . . .	104
<b>Nerve Fiber . . . . .</b>	<b>5</b>	Tri-ortho-cresyl Phosphate Intoxication . . . . .	110
<b>A. Normal Anatomy . . . . .</b>	<b>5</b>	Interstitial Neuropathy in Dysproteinemia . . . . .	116
Peripheral Nerve . . . . .	6	Neuropathy in Hypothyroidism . . . . .	122
Myelination . . . . .	8	Peripheral Nerve Engagement in Metachromatic Leukodystrophy . . . . .	126
Axon . . . . .	10	Peripheral Nerve Involved in Niemann-Pick Disease . . . . .	130
Myelin Sheath . . . . .	12	Peripheral Nervous System Involvement in Globoid Cell Leukodystrophy . . . . .	134
Schwann Cell . . . . .	14	Fabry's Disease in the Peripheral Nervous System . . . . .	140
Endoneurial Connective Tissue . . . . .	16	Lipofuscinosis of the Peripheral Nerve . . . . .	146
Fibroblast . . . . .	16	Peroneal Muscular Atrophy . . . . .	148
Mast Cell . . . . .	18	Peripheral Neuropathy in Primary Amyloidosis . . . . .	152
Capillary . . . . .	20	Ischemic Neuropathy . . . . .	158
Perineurial Sheath . . . . .	22	<b>Motor End-plate . . . . .</b>	<b>161</b>
Myelinated Nerve Fiber . . . . .	26	<b>Normal Anatomy of the Motor End-plate</b>	<b>162</b>
Node of Ranvier . . . . .	30	<b>Pathologic Anatomy of the Motor End-plate</b>	<b>166</b>
Node of Ranvier and Paranodal Myelin Sheath . . . . .	32	<b>Auditory, Vestibular, Olfactory and Gustatory Organs</b>	
Schmidt-Lanterman Cleft . . . . .	34	by H. Spöndlin	
Unmyelinated Nerve Fiber . . . . .	38	Introduction . . . . .	173
Structural Peculiarities of Nonpathologic Significance . . . . .	42	<b>Cochlea . . . . .</b>	<b>177</b>
Axoplasmic Granulated Vesicles . . . . .	42	<b>A. Normal Ultrastructure . . . . .</b>	<b>177</b>
The Myelin Sheath "Ovoid" . . . . .	44	Outer Hair Cells . . . . .	178
Splits in the Myelin Sheath . . . . .	46	Outer Hair Cells—Nerve Endings . . . . .	184
Reich's $\pi$ -Granules . . . . .	48	Inner Hair Cell . . . . .	188
The $\mu$ -Granules (Elzholz Body) . . . . .	50	Inner Hair Cell—Nerve Endings . . . . .	192
<b>B. General Cytopathology and Histopathology . . . . .</b>	<b>53</b>	Neuron . . . . .	196
Axonal Degeneration . . . . .	54	Reissner's Membrane, Pillar Cells . . . . .	198
Primary Myelin Sheath Disease . . . . .	60	Basilar Membrane . . . . .	200
Myelin Sheath Regeneration . . . . .	66	Spiral Ligament . . . . .	202
Reactive Disease of the Schwann Cell . . . . .	68	Stria Vascularis . . . . .	204
Cell Edema . . . . .	68	<b>B. Pathologic Conditions . . . . .</b>	<b>207</b>
Disintegration of the ER . . . . .	70	Vascular Disturbance . . . . .	208
Cell Inclusions . . . . .	72	Organ of Corti . . . . .	208
Clearing Processes in the Schwann Cell . . . . .	78	Stria Vascularis . . . . .	214
Onion Bulb Formation . . . . .	80	Spiral Ligament . . . . .	216
Collagen Inclusions within the Schwann Cell . . . . .	82	Osmotic-Chemical Damage, Organ of Corti	218
Activated Fibroblast . . . . .	84		
Macrophage . . . . .	86		
Basement Membrane Hyperplasia . . . . .	90		
Microfibrillar Hyperplasia . . . . .	92		

Intoxication with Neomycin, Organ of Corti	220	<b>A. Normal Anatomy</b>	343
Intoxication with Streptomycin, Organ of Corti	230	Photoreceptors	344
Acoustic Trauma, Organ of Corti	232	Inner Segment	352
Nerve Degeneration, Organ of Corti	252	Outer Limiting Membrane	354
Changes due to aging	260	Synaptic Zone	356
<b>Vestibular Labyrinth</b>	263	Synapses	358
<b>A. Normal Ultrastructure</b>	263	Medial Layers	360
Sensory Epithelium	264	Horizontal Fiber	362
Epithelium of the Transitional Zone of the Cristae	274	Glial Cells	364
"Chromophil" Epithelium	276	Horizontal Cells	366
<b>B. Pathologic Conditions</b>	281	Ganglion Cell	368
Vascular Disturbance, Crista	282	Müller Cell	372
Macula	284	Pigment Epithelium	374
Intoxication with Streptomycin, Macula of the Utricle	286	Capillaries	378
Intoxication with Streptomycin, Cristae	292	<b>B. Pathologic Conditions</b>	385
Intoxication with Streptomycin, Macula of the Utricle	294	Monoiodacetate Damage	386
Intoxication with Dihydrostreptomycin, Crista	298	Early Stage	386
Intoxication with Neomycin, Crista	300	Early Stages	388
Intoxication with Streptomycin, Chromophil Epithelium	302	Inner Segments	390
Menière's Disease (Crista)	304	Beginning Nuclear Necrosis	394
Alterations Due to Age, Crista	306	Degeneration of Synapses	396
<b>Olfactory Epithelium</b>	311	Destruction of Outer Segment	398
<b>Taste Buds</b>	326	Pigment Epithelium	400
<b>The Retina</b>		Degeneration after 24 Hours	404
by J. Babel		Degeneration after 48 Hours	408
Introduction	339	Later Stage	410
		Intoxication with Sodium Iodate	412
		Pigment Epithelium	412
		Müller Cells	414
		Destruction of Tissue	416
		Necrosis of Visual Cells	418
		Regeneration of the Pigment Epithelium	420
		Chloroquin (Nivaquin) Retinopathy	422
		Siderosis	434
		Early Lesions in Müller Cells	434
		Later Lesions	436
		Transformation of Retinal Structure	438
		Imidodipropionitryl (IDPN)	440
		References	443
		Index	449
