1 Historical review 1

2 Vascular anatomy 9

Vascularization of the skin of the limbs and classification of skin flaps 10

Vascular anatomy of muscles: classification 18

The venous drainage in the reverse arterial flow flap 24

Upper limb: tree of flaps and blood supply 28

Lower limb: tree of flaps and blood supply 36

3 Preoperative planning 45

4 Transfers from the upper limb 51

Arm and forearm 52

Posterior arm flap 52

Lateral arm flap 55

Brachioradialis flap 62

Forearm flaps 66

Posterior interosseous flap 72

Distal ulnar artery flap 78

Hand and digits 83

Kite flap 83

Island flaps from the digits 88

Intermetacarpal and dorsocommissural flaps 93

5 Transfers from the lower limb 95

Thigh 96

Vastus lateralis flap 96

Tensor fasciae latae myocutaneous flap 101

Gracilis flap 104

Biceps femoris flap (long head) 107

Lateral and distal thigh flap 111

Osteoperiosteal flap (from the femur) 115

Leg 118

Fasciocutaneous saphenous artery flap 118

Gastrocnemius flaps 122

Soleus flap 130

Flexor flaps 138

Extensor flaps 143

Peroneus flap 146

Lateral supramalleolar flap 148

Neurocutaneous flaps 158

Vascularized fibula transfer 162

Foot 169

Dorsalis pedis flap 169

Extensor digitorum brevis flap 177

Medial plantar flap 183

Medialis pedis flap 189

Abductor hallucis flap 193

Second toe transfer 196

6 Transfers from the thorax, abdomen and pelvis 203

Shoulder girdle 204

Latissimus dorsi flap 206

Serratus anterior flap 211

Scapular and parascapular flaps 215

Abdomen and pelvis 219

Rectus abdominis flap 220

Groin flap 223

Vascularized iliac crest transfer 226

Osteomyoperiosteal flap 231

Gluteus maximus flap 233

7 Indications for pedicled island flaps 241

Pedicled flaps of the upper extremity 244

Tissue losses from the shoulder 244

Tissue losses from the arm and hand 246

Pedicled flaps of the lower extremity 251

The pelvic girdle 252

The knee 255

The middle third of the leg 255

The distal third of the leg 257

Foot and ankle 258
