
DIFFICULT
PROBLEMS
IN **HAND**
SURGERY

JAMES W. STRICKLAND
JAMES B. STEICHEN

Contents

SECTION ONE

SKIN PROBLEMS

- 1 Abrasion injuries of the hand, 3
James E. Bennett
- 2 Skin coverage for challenging hand injuries, 10
Harry J. Buncke and **Gerald D. Harris**
- 3 Fingernail injuries, 22
Elvin G. Zook
- 4 Reconstruction of the contracted first web space, 28
James W. Strickland
- 5 The coverage of difficult digital defects with local rotation flaps, 38
James W. Strickland

SECTION TWO

EXTENSOR TENDON PROBLEMS

- 6 Reconstruction in chronic extensor tendon problems, 47
Lawrence H. Schneider
- 7 Boutonniere deformity, 54
Julio Taleisnik
- 8 Results of surgical treatment of chronic boutonniere deformity: an analysis of prognostic factors, 62
James B. Steichen, James W. Strickland, William H. Call, and Stephen G. Powell

SECTION THREE

FLEXOR TENDON PROBLEMS

- 9 Functional recovery after flexor tendon severance in the finger: the state of the art, 73
James W. Strickland

- 10 Problems in the management of flexor tendon injuries in zones I and II, 86

Robert J. Duran and **Robert G. Houser**

- 11 The pulley system: rationale for reconstruction, 94

James M. Hunter and **John F. Cook, Jr.**

SECTION FOUR

BONE PROBLEMS

- 12 Scaphoid fractures, 105
Donald C. Ferlic
- 13 Articular fractures: beware of the "unseen" forces, 107
James H. House
- 14 Complex fractures of the finger metacarpals, 114
James L. Becton
- 15 Factors influencing digital performance after phalangeal fracture, 126
James W. Strickland, James B. Steichen, William B. Kleinman, and Noreen Flynn
- 16 The role of tenolysis after phalangeal fractures, 140
Warren B. Burrows, Robert H. Hartwig, William B. Kleinman, and James W. Strickland

SECTION FIVE

INFECTION PROBLEMS

- 17 The management of difficult infections of the hand, 147
Thomas L. Greene and **James W. Strickland**
- 18 Difficult infections of the hand, 156
Lawrence H. Schneider

SECTION SIX

JOINT PROBLEMS

- 19** The thumb axis joints: a biomechanical model, 169
Ronald L. Linscheid
- 20** Management of posttraumatic arthritis of the proximal interphalangeal joint with silicone implant arthroplasty, 173
James W. Strickland, J. Anthony Dustman, Leo Steizer, William B. Stromberg, Jr., James B. Steichen, and John L. Bell
- 21** Controversies in hand surgery: resection arthroplasty versus silicone replacement arthroplasty for trapeziometacarpal osteoarthritis, 183
Richard J. Smith and Peter C. Amadio
- 22** Carpometacarpal dislocations (excluding the thumb), 189
Thomas L. Greene and James W. Strickland

SECTION SEVEN

RHEUMATOID ARTHRITIS PROBLEMS

- 23** The caput ulnae syndrome: update, 199
Mack L. Clayton
- 24** Flexor tenosynovitis in the rheumatoid hand, 203
Donald C. Ferlic and Mack L. Clayton
- 25** Complex arthritic disabilities of the thumb, 205
James W. Strickland and William B. LaSalle
- 26** Rheumatoid arthritis of the wrist, 216
Julio Taleisnik
- 27** The surgical management of multiple-level deformities of the rheumatoid hand: a practical approach, 224
James W. Strickland and William B. LaSalle

SECTION EIGHT

MICROVASCULAR PROBLEMS

- 28** A rationale for digital salvage, 243
James W. Strickland
- 29** Ulnar artery thrombosis: a rationale for management, 253
James R. Urbanik and L. Andrew Koman

- 30** Traction avulsion amputations of the upper extremity replanted by microvascular anastomosis, 264
Harry J. Buncke and Elliott H. Rose

SECTION NINE

TENDON TRANSFER PROBLEMS

- 31** Restoration of lateral pinch in quadriplegia secondary to spinal cord injury: surgery selection by functional level, 275
James H. House
- 32** Low ulnar nerve palsy: evaluation and treatment considerations, 285
Hill Hastings II
- 33** Hand reconstruction and tendon transfer problems, 300
H. Kirk Watson

SECTION TEN

PAIN PROBLEMS

- 34** Reflex sympathetic dystrophy, 305
Harold E. Kleinert and Graeme J. Southwick
- 35** Tenolysis: pain control and rehabilitation, 312
James M. Hunter, Frank Seinsheimer III, and Evelyn J. Mackin
- 36** The painful neuroma, 319
George E. Omer, Jr.
- 37** The surgical management of painful neuromas in the hand, 324
Thomas L. Greene and James B. Steichen

SECTION ELEVEN

WRIST PROBLEMS

- 38** Limited wrist arthrodesis, 335
H. Kirk Watson
- 39** Scapholunate dissociation, 341
Julio Taleisnik
- 40** Static and dynamic forces on the multiple-linked carpus as an explanation for wrist deformity, 349
Ronald L. Linscheid

- 41** Arthrodesis of the wrist (position and technique), 352
Mack L. Clayton
- 42** Management of the radial clubhand, 355
William B. Kleinman

SECTION TWELVE

NERVE PROBLEMS

- 43** The neuroma-in-continuity, 369
George E. Omer, Jr.
- 44** The ulnar nerve at the elbow, 374
George E. Omer, Jr.
- 45** Selection of type of peripheral nerve repair, 379
James R. Urbanik

SECTION THIRTEEN

DUPUYTREN'S CONTRACTURE

- 46** Persistent contracture of the little finger in Dupuytren's disease, 389
Robert M. McFarlane

- 47** Treatment of Dupuytren's contracture by extensive fasciectomy through multiple Y-V-plasty incisions: short-term evaluation of 170 consecutive operations, 399
H. Kirk Watson
- 48** Problems of Dupuytren's contracture, 402
Harold E. Kleinert, Ian Leitch, David J. Smith, Jr., and Lawrence M. Lubbers
- 49** Dupuytren's contracture: treatment by the open-palm technique, 409
William B. Kleinman
- 50** The proximal interphalangeal joint in Dupuytren's contracture, 414
Thomas L. Greene, James W. Strickland, and R. Fred Torstrick
