

John Gray Seiler III

Essentials of
**HAND
SURGERY**

AMERICAN SOCIETY
FOR SURGERY
OF THE HAND

LIPPINCOTT WILLIAMS & WILKINS

Contents

Contributing Authors	x
Preface	xi
1 Embryology	1
2 Anatomy	4
3 History	21
4 Physical Examination of the Hand	23
5 History and Physical Examination of the Child	49
6 Anesthesia for Hand Surgery	51
7 Casting and Splinting	57
8 Distal Radius Fractures	65
9 Carpal Fractures	71
a. Scaphoid	71
b. Hook of Hamate	75
c. Other Carpal Fractures	78
10 Acute Carpal Dislocations and Ligamentous Injuries	81
11 Chronic Carpal Instability	86
12 Carpal Metacarpal Fractures and Dislocations	90
a. Thumb	90
b. Index — Small	94
13 Fractures and Dislocations of the Metacarpals and Phalanges ..	99
14 Soft-Tissue Injuries and Lacerations	114
15 Extensor Tendon Injuries	118
16 Flexor Tendon Injuries	123

17	Nerve Injuries	128
18	Arterial Injuries	135
19	Vascular Disorders	139
20	Dermatologic Disorders	143
21	Infections	152
22	Compartment Syndrome	163
23	Tumors	167
24	Arthritis	174
25	Tendonitis of the Wrist and Hand	180
26	Burns	186
27	High-Pressure Injection Injuries	190
28	Bites	193
	a. Human Bites	193
	b. Cat and Dog Bites	194
	c. Other “Wild Animal” Bites	196
	d. Snake Bites	196
	e. Spider Bites: Brown Recluse	198
	f. Spider Bites: Black Widow	200
	g. Scorpion Bites	200
29	Dupuytren’s Disease	203
30	Congenital Anomalies	207
31	Amputations	216
32	Nail Bed and Fingertip Injuries	220
33	Foreign Bodies	225
34	Complex Regional Pain Syndromes	229
35	Clenched Fist Syndrome, Factitious Limb Edema, and Self-Inflicted Injury	235
36	Emergency Room Assessment	237
37	The Operating Room in Hand Surgery	241
38	Aftercare of the Injured and Operated Hand	245
	Suggested Readings	251

Appendix 1. Key to Abbreviations	252
Appendix 2. Anatomy: Summary	253
Appendix 3. Clinical Assessment Methods	260
Subject Index	265
