

Volume 1

THE HAND
in
RADIOLOGIC
DIAGNOSIS

With Gamuts and Pattern Profiles

POZNANSKI

CONTENTS

Part I THE NORMAL HAND AND TECHNIQUES OF ITS EVALUATION

1

HISTORY, RADIOGRAPHIC ANATOMY, EMBRYOLOGY AND COMPARATIVE ANATOMY	3
Radiology of the Hand	4
Historical Facets	4
Normal Radiographic Anatomy of the Hand	5
Positioning in Radiography of the Hand	6
Immobilization of the Hand	9
Radiation Protection	9
Technical Factors in Hand Radiography	10
Hand Radiographs in the Operating Room	13
Magnification Radiology	15
Radiologic Evaluation of Hand Motion	15
Ulnar and Radial Motion of the Wrist	17
Flexion and Extension of the Wrist	18
Motion of the Thumb	18
Other Motions of the Hand	20
Embryology of the Hand	22
Comparative Anatomy of the Hand	24

2

RADIOLOGIC ANTHROPOMETRY OF THE HAND	31
Lengths of the Metacarpals and Phalanges	32
Relative Bone Lengths	41
Metacarpophalangeal Ratios	41
Pattern Profile Analysis	46
Size of Carpal Bones	54
Relative Slenderness of Bone	56
Measurement of Cortical Bone	58
Other Methods to Evaluate Mineralization	62
Soft Tissue Measurements	63
Sesamoid Index	63
Carpal Angle	63

3

SKELETAL MATURATION	67
Applications of Evaluation of Maturation	68
Methods of Evaluating Maturation	69
History	69
The Greulich-Pyle Atlas	69
Range of Normal Variation	72
Population Comparisons	72
The Garn Approach to Skeletal Maturation	77
The Tanner-Whitehouse-Healy Method (TW2 Method)	78
Other Methods of Evaluation	78
Operational Meaning of Maturity Criteria	78
Dysharmonic Maturation	79
Symmetry of Maturation	79
Difference in Maturation Between Carpals and the Tubular Bones of the Hand	82
Local Factors Affecting the Maturation of Only a Few Bones	84
Relatively Late Onset or Early Closure of Individual Centers	84
Sequence Variations	85
Advanced Skeleton Maturation	92
Conditions Associated with Retardation of Maturation	93
Prediction of Adult Stature for Individuals	93

4

ARTERIOGRAPHY	97
<i>Joseph J. Bookstein, M.D.</i>	
Technique of Digital Arteriography	98
Normal Anatomy and the Normal Arteriogram	98
Pathologic Conditions	100
Digital Ischemia	100
Scleroderma	101
Rheumatoid Arthritis	102
Other Collagen Diseases	102
The Hypothenar Hammer Syndrome	103
Electrical Burns	103
Frostbite	104
Other Types of Trauma	105
Hemodialysis Shunts	105
Arteriosclerosis	106
Embolism	106
Thromboangiitis Obliterans (Buerger Disease)	106
Nonischemic Conditions	109
Occupational Acro-Osteolysis	109
Tumors	109
Aneurysms	109

5

OTHER SPECIAL PROBLEMS	113
Tomography	113
Computed Tomography	116

Xeroradiography	117
Electron Radiography	120
Arthrography and the Study of the Digital Sheaths	120
Arthrography of the Wrist	120
Arthrography of Other Joints in the Hand	120
Radiography of the Synovial Sheath of the Flexor Tendon of the Wrist	123
Radiodermatography	124
Thermography	126
Radionuclide Imaging of the Hand	128
Scanning in Joint Disease	128
Scanning in Trauma	133
Other Abnormalities on Scans	133

Part II NORMAL VARIANTS AND ANOMALIES OF THE HAND

6

VARIANTS, BONY LINES, MINOR ANOMALIES AND EPIPHYSEAL ABNORMALITIES

Vascular Grooves and Other Cortical Lucencies	139
Bone-In-Bone Appearance	142
Dense Metaphyseal Lines and Growth Lines	143
Lucent Metaphyseal Bands	144
Sclerotic Foci in Bone, Including Bone Islands	145
Striations in Metacarpal Cortex	147
Epiphyseal Abnormalities	147
Dense or Ivory Epiphyses	147
Pseudoepiphyses	152
Multiple Epiphyseal Centers	154
Cone-Shaped Epiphyses	155
Longitudinal Bracket Epiphysis (Delta Phalanx Anomaly)	161
Other Epiphyseal Abnormalities	162
Metaphyseal Irregularity and Metaphyseal Sclerosis	163
Sesamoid Bone Variations	165
Variation in Shape of the Phalanges and Metacarpals	166

7

ANOMALIES OF THE HAND—GENERAL CONSIDERATIONS

Historical Facets	173
Nomenclature of the Congenital Limb Deformities	173
Glossary of Terms Used to Describe Hand Abnormalities and Variants	175
Causes of Congenital Malformations	176
Nonrandom Laterality of Malformations	178
Vascular Supply of the Hand in Congenital Malformations	178
Incidence of Congenital Malformations	178

8

NORMAL VARIATION AND CONGENITAL ANOMALIES OF THE WRIST

Variability in the Shape, Size and Density of the Carpals	181
Cysts and Pseudocysts of the Carpals	183
Alterations of Individual Carpals	186
Scaphoid (Navicular)	186
Lunate	190
Trapezium (Greater Multangular)	191
Trapezoid (Lesser Multangular)	192
Capitate (Os Magnum)	192
Hamate	192
Triquetrum (Triangular or Cuneiform Bone)	193
Pisiform	193
Variations in Positions of the Carpals—the Carpal Angle	193
Madelung Deformity	195
Accessory Carpals and Other Ossicles	196
Carpal Functions	201

9

SHORTENING OR ABSENCE OF PORTIONS OF THE HANDS AND DIGITS (BRACHYDACTYLIES, RADIAL AND ULNAR DEFECTS, AMPUTATIONS)

Diminution in Size of the Distal Phalanges (Brachytelephalangy)	212
Short Distal Phalanx of the Fifth Finger (Senior Syndrome)	218
Short Distal Phalanx of the Thumb (Bell's Brachydactyly D, Potter's Thumb, Stub Thumb, Murderers' Thumb)	221
Hypoplasia of the Middle Phalanges (Brachymesophalangy)	221
Brachymesophalangy-5 (Bell's A-3 Brachydactyly)	223
Brachymesophalangy-2 (Bell's A-2 Brachydactyly; Short Middle Phalanx, Index Finger; Mohr-Wriedt Brachydactyly, Delta Phalanx)	225
Shortening of All Middle Phalanges and the Proximal Phalanx of the Thumb (Bell's A-1 Brachydactyly)	226
Short Proximal Phalanges	231
Short Metacarpals (Brachymetacarpalia)	232
Short First Metacarpals	232
Brachydactyly E	233
Other Disorders with Short Third, Fourth and Fifth Metacarpals	236
Shortening Affecting Bones in Several Rows	237
Brachydactyly Type B (Apical Dystrophy)	237
Brachydactyly Type C (Involvement Primarily of the Middle and Proximal Phalanges)	237
Atypical Brachydactylies	242
Hypoplasias or Defects of the Hand Involving Mainly Rays	244
Radial Defects (Radial Hemimelia, Radial Club Hand, Radial Meromelia, Radial Dysplasia, Absent Thumb, Hypoplastic Thumb)	244
Ulnar Hypoplasia	248
Central Hypoplasia—Split Hand (Lobster Claws, "Ectrodactyly," Oligodactyly, Monodactyly)	252

Terminal Transverse Defects (Ectrodactyly, Aphyalangism, Adactyly Acheiria)	256
Amniotic Bands (Streeter's Bands, Congenital Amputations, Intrauterine Amputations, Congenital Constricting Bands)	259

10

OTHER ANOMALIES OF THE HAND (HYPERPHALANGISM, POLYDACTYLY, SYNDACTYLY, CROOKED FINGERS, SYMPHALANGISM, MACRODACTYLY AND ANGIODYSPLASIAS)	263
Hyperphalangism	264
Triphalangeal Thumb	264
Polydactyly	266
Types of Polydactyly (Temtamy Classification)	267
Postaxial Polydactyly	267
Preaxial Polydactyly	270
True Thumb Polydactyly	271
Polydactyly of Triphalangeal Thumb	273
Polydactyly of Index Finger	273
Central Polydactyly	273
Polysyndactyly	273
Duplication of the Entire Hand	275
Syndactyly	278
Type I	279
Type II	280
Type III	280
Type IV	280
Type V	280
Curvatures of the Fingers	283
Clinodactyly	288
Isolated Clinodactyly	288
Syndrome-Associated Clinodactyly	288
Camptodactyly and Contractures	290
Isolated Camptodactyly	290
Syndrome-Associated Camptodactyly and Contractures	290
Kirner's Deformity	291
Dupuytren's Contracture	291
Other Contractures	291
Symphalangism	293
Macroactyly (Megalodactyly, Macrodistrophia Lipomatosa)	295
Hemihypertrophy	298
Angiodysplasias of the Hand	299

Part III THE HAND AS A MIRROR OF CONGENITAL MALFORMATIONS

11

THE CHROMOSOMAL DISORDERS	305
Sex Chromosome Abnormalities	306
Turner Syndrome (XO Syndrome)	306

XXXXY Syndrome	311
XXX Syndrome	313
XXXXX and XXX Syndrome	314
Fragile X Syndrome	314
Autosomal Disorders	314
Trisomy 21 (Down Syndrome, Trisomy G, Mongolism)	314
Monosomy 21	320
Trisomy 22	320
Trisomy 18 Syndrome (E Trisomy, Edwards Syndrome)	321
Other 18 Chromosome Abnormalities (18p-, 18q-, 18r)	323
Trisomy 13 (D Trisomy, Patau Syndrome)	323
13q- Syndrome (13r, Ring D)	324
Trisomy 9p	325
Trisomy 8 Mosaicism Syndrome (Warkany Syndrome)	326
4p- Syndrome (Wolf-Hirschhorn Syndrome)	327
5p- Syndrome (Cri-du-Chat Syndrome; Deletion of the Short Arm of Chromosome 5 Syndrome)	327
Ring B Chromosome	329
Other Autosomal Disorders	329
Triploidy	329

12

THE CONGENITAL MALFORMATION SYNDROME: AN

INTRODUCTION	330
Definition	330
Variations Within the Congenital Malformation Syndrome	331
Genetic Heterogeneity	331
Splitters and Lumpers	332
Perceptions of Patterns of Congenital Abnormalities	332
Cardinal Features of Syndromes	332
Nomenclature and Classification	332
A Standard Nomenclature	333
The Importance of Diagnosis of the Malformation Syndromes	336
The Hand in the Congenital Malformation Syndromes	337
Patterns of Hand Abnormalities	337
Measurement of the Hand Bones	337

13

SPECIFIC CONGENITAL MALFORMATION SYNDROMES

Aarskog Syndrome (Aarskog-Scott Syndrome, Facio-Digito-Genital Syndrome)	345
Achondrogenesis (Type I [Parenti-Fraccaro], Type II [Langer- Saldino])	346
Achondroplasia (Chondrodystrophia Fetalis)	347
Acral-Renal Association	352
Acrocallosal Syndrome (Schinzel Syndrome)	352
Acrocephalopolysyndactyly (Carpenter Syndrome)	353
Acrocephalosyndactyly	355
Acrocephalosyndactyly—Typical (Types I and II, Apert Syndrome, Apert-Crouzon Syndrome)	356
Acrocephalosyndactyly—Other Types (Type III, Saethre-Chotzen; Type IV, Waardenburg; Type V, Pfeiffer; and Others)	358

Acrodysostosis	361
Acromesomelic Dysplasia	363
Acro-Pectoro-Vertebral Dysplasia (F-Syndrome)	363
Aglossia-Adactyly Syndrome (Hypoglossia-Hypodactylia Syndrome) ...	364
André Syndrome	364
Ankyloglossia Superior (Glossopalatine Ankylosis)	365
Arthrogryposis	365
Arthrogryposis—Distal	368
Arthroophthalmopathy (Hereditary Progressive Arthroophthalmopathy, Stickler Syndrome)	369
Ashley Syndrome (Congenital Metacarpotalar Syndrome)	371
Asphyxiating Thoracic Dysplasia (Jeune Disease, Thoracic-Pelvic- Phalangeal Dystrophy)	372
Atelosteogenesis (Spondylohumero-femoral Hypoplasia, Giant Cell Chondrodysplasia)	374
Autosomal Dominant Osteosclerosis	374
Baller-Gerold Syndrome	374
Beckwith-Wiedemann Syndrome (Exomphalos-Macroglossia-Gigantism Syndrome, EMG Syndrome, Syndrome of Hyperplastic Fetal Visceromegaly)	375
Biernard Syndrome I	376
Biernard Syndrome II	376
Bilginturan Syndrome (Brachydactyly-Hypertension Syndrome)	376
Blackfan-Diamond Anemia (Congenital Hypoplastic Anemia, AASE Syndrome)	377
C Syndrome	378
Campomelic Dysplasia	378
Camptobrachydactyly	379
Cerebral Gigantism (Cerebral Gigantism, Sotos Syndrome)	380
Cerebro-Hepato-Renal Syndrome (CHRS, Zellweger Syndrome)	382
Cheilolumbar Dysostosis	383
Chondrodysplasia Punctata (Chondrodystrophia Calcificans Congenita, Stippled Epiphyses)	383
Chondroectodermal Dysplasia (Ellis-Van Creveld Syndrome)	387
Christian Brachydactyly Syndrome (Dominant Preaxial Brachydactyly)	389
Christian Syndrome II	389
Cleidocranial Dysplasia (Cleidocranial Dysostosis, Marie-Sainton Syndrome, Mutational Dysostosis)	389
Cloverleaf Skull (Kleeblattschädel Deformity Syndrome)	392
Cockayne Syndrome	393
Coffin-Lowry Syndrome	393
Coffin-Siris Syndrome	394
Cohen Syndrome	396
Congenital Contractural Arachnodactyly (Beals Syndrome)	397
Craniodiaphyseal Dysplasia	398
Cranioectodermal Dysplasia	399
Craniofacial Dysostosis (Crouzon Disease)	399
Cranio-metaphyseal Dysplasia	400
Craniosynostosis Syndromes	401
Cryptodontic Brachymetacarpalia	401
Cryptophthalmos Syndrome (Fraser Syndrome)	401

De Lange Syndrome (Brachmann-De Lange Syndrome, Cornelia De Lange Syndrome, Typus Degenerativus Amstelodamensis)	401
Diaphyseal Dysplasia (Engelmann-Camurati Disease)	404
Diastrophic Dysplasia	407
Door Syndrome (Deafness-Onychodystrophy-Osteodystrophy-Retardation Syndrome)	409
Duane Syndrome	410
Dygve-Melchior-Clausen Syndrome (Morquio-Ullrich Disease)	411
Dyschondrosteosis (Léri-Weill Syndrome)	412
Dysosteosclerosis	413
Dysplasia Epiphysialis Hemimelica (Tarsoepiphyseal Aclasis, Trevor Disease)	414
Dyssegmental Dwarfism (Lethal Camptomicromelic Dwarfism)	415
Ectodermal Dysplasia	415
EEC Syndrome (Electrodactyly-Ectodermal Dysplasia-Clefting Syndrome)	416
Ehlers-Danlos Syndrome	416
Enchondromatosis (Ollier Disease, Dyschondroplasia)	417
Enchondromatosis with Hemangioma (Maffucci Syndrome)	419
Endosteal Hyperostosis (Van Buchem Disease, Hyperostosis Corticalis Generalisata)	419
Epidermolysis Bullosa	420
Faciocardiomic Dysplasia (Cantú Syndrome)	420
Farber Disease (Lipogranulomatosis, Ceramidase Deficiency)	420
Femur-Fibula-Ulna Syndrome (FFU Syndrome), Proximal Femoral Focal Deficiency Syndrome (PFFD Syndrome)	421
Fetal Alcohol Syndrome	422
Fetal Folic Acid Antagonists Syndrome (Fetal Aminopterin, Fetal Methotrexate)	423
Fetal Hydantoin Syndrome (Fetal Dilantin Syndrome)	423
Fetal Thalidomide (Thalidomide Embryopathy)	425
Fetal Warfarin Embryopathy (Fetal Anticoagulant Embryopathy)	428
Fibrodysplasia Ossificans Progressiva (Myositis Ossificans Progressiva)	429
Fibrous Dysplasia (Jaffe-Lichtenstein Disease, with Sexual Precocity—The McCune-Albright Syndrome)	431
First and Second Branchial Arch Syndrome (Hemifacial Microsomia, Oculoauriculo-Vertebral Dysplasia, Goldenhar Syndrome)	433
Focal Dermal Hypoplasia (Goltz Syndrome)	434
Frias Syndrome	434
Frontodigital Syndrome	435
Frontometaphyseal Dysplasia	435
Frontonasal Dysplasia	438
Fucosidosis	438
Gardner Syndrome	438
Glycogen Storage Diseases	439
GM ₁ Gangliosidosis, Type 1 (Neurovisceral Storage Disease, Neurovisceral Lipidosis, Infantile Generalized Gangliosidosis, Pseudo-Hurler)	439
Goodman Syndrome	440
Gordon Syndrome (Distal Arthrogryposis, Type IIa)	440
Grebe Chondrodysplasia (Achondrogenesis Type Grebe)	441
Greig Cephalopolysyndactyly Syndrome	441

Hakola Syndrome	442
Hall Syndrome (Congenital Hypothalamic Hamartoblastoma Syndrome, Pallister-Hall Syndrome)	442
Hand-Foot-Genital Syndrome (Hand-Foot-Uterus Syndrome)	443
Hollister-Hollister Syndrome	445
Holt-Oram Syndrome and Other Cardiomeic Syndromes	446
Other Cardiomeic Syndromes	448
Homocystinuria	449
Hunter-Fraser Syndrome	450
Hypochondroplasia	450
Hypophosphatasia	452
Indifference to Pain (Congenital Indifference to Pain, Congenital Analgia, Congenital Insensitivity to Pain)	454
Ives-Houston Syndrome	455
Ivic Syndrome	456
Juberg-Hayward Syndrome	457
Juvenile Idiopathic Osteoporosis (Juvenile Osteoporosis)	458
Kaschin-Beck Disease	459
KBG Syndrome	459
Keutel Syndrome	459
Klein-Waardenburg Syndrome (Waardenburg Syndrome)	460
Klippel-Trenaunay-Weber Syndrome (Parkes Weber Syndrome, Angioosteohypertrophic Syndrome, Osteohypertrophic—Varicose Nevus Syndrome)	460
Kniest Dysplasia	461
Lacrime-Auriculo-Dento-Digital Syndrome (Ladd Syndrome)	463
Larsen Syndrome	464
Laurence-Moon-Biedl-Bardet Syndrome	467
Lentiginos Syndrome (LEOPARD Syndrome)	467
Lenz Microphthalmia Syndrome	468
Léri Pleonosteosis	468
