

SURGERY OF THE HAND

BY

STERLING BUNNELL, M.D.

Honorary Member of American Academy of Orthopedic Surgeons

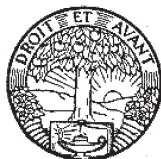

Member of American Association of Plastic Surgeons

and of American Society of Plastic and Reconstructive Surgery.

*Licentiate of American Board of General Surgery
and Plastic Surgery*

CONTENTS

PART ONE

THE HAND

1. PHYLOGENY AND COMPARATIVE ANATOMY	3
Origin of Limbs	3
Phylogenetics of Intrinsic Muscles of Hand	3
Pectoral Girdle	8
Arm	12
Forearm	13
Hand	13
Phylogeny and Differentiation of Muscles from Amphibia to Mammals	18
Strange Specialization or Adaptation of Manus	20
Primate Hand	24
2. THE NORMAL HAND	31
Skin and Creases	31
Movements of Upper Extremity	33
Lower Radio-ulnar Joint	33
Movements of Wrist Joint	34
Movements of Hand	37
Mechanics of Muscle and Tendon Action	42
Amplitude of Excursion of Tendons	46
Surgical Anatomy	48
Ossification Centers	53
Skeletal Maturation	54

PART TWO

RECONSTRUCTION OF THE HAND

3. EXAMINATION OF THE HAND	59
Reports	59
History Taking	60
Examination	60
Diagnosis	67
Malingering	69
Writing Reports	70
Examples of Reports	72

4. RECONSTRUCTION OF THE HAND	78
General Considerations	78
Main Principles	79
Operative Technic	82
<i>Cleansing Skin</i>	82
<i>Draping and Lighting</i>	82
<i>Keeping Off Skin</i>	83
<i>Holding by Assistant</i>	83
<i>Operating</i>	84
<i>Extensive Cases</i>	89
<i>Prognosis</i>	89
<i>Tourniquet</i>	90
<i>Anesthesia</i>	91
<i>An Essential in Reconstructive Surgery: Atraumatic Technic</i>	95
Splinting with Plaster of Paris	99
Splints	103
<i>Purpose</i>	103
<i>Requirements</i>	103
<i>Materials</i>	103
<i>Types</i>	104
5. SKIN AND FLEXION CONTRACTURES	120
Replacement of Scar by Good Tissue	120
Incisions	120
Keloids	121
Flexion Contractures	125
<i>Effect of Infections</i>	125
<i>Rôle of Tendons in Contractures</i>	128
<i>General Principles of Treatment</i>	128
<i>Plastic Repair of Skin in Flexion Contractures</i>	131
<i>Contractures from Burns</i>	160
Dupuytren's Contracture	162
<i>Incidence</i>	162
<i>Etiology</i>	162
<i>Symptoms</i>	163
<i>Diagnosis</i>	165
<i>Pathology</i>	165
<i>Treatment</i>	168
Volkman's Ischemic Contracture	173
<i>Definition</i>	173
<i>Etiology</i>	174
<i>Pathologic Findings</i>	174
<i>Mechanism</i>	176
<i>Symptoms</i>	178
<i>Treatment</i>	179

<i>Clinical Types of Loss of Intrinsic Muscles of Hand</i>	362
<i>Treatment</i>	366
<i>Summary and Conclusions</i>	371
Intrinsic Muscles of Thumb	371
<i>Adduction of Thumb; Carpal and Metacarpal Arches</i>	371
<i>Opposition of Thumb</i>	375
Loss of Thumb; Methods of Repairing	390
<i>Phalangization</i>	390
<i>Transplanting Index Finger to Position of Thumb (Pollicization with Index)</i>	394
<i>Building New Thumb or Elongating It by Tubular Pedicle and Bone Graft</i>	394
<i>Digital Transplantation</i>	395
<i>Combination of Methods</i>	397
<i>Physiologic Reconstruction of Thumb After Total Loss</i>	397
11. THE ARM IN ITS RELATION TO THE HAND	406
Hand Dependent on Arm	406
Pressure on Nerves in Neck	406
<i>At Spine</i>	406
<i>Scalemus Anticus Syndrome</i>	406
Pectoral Girdle	407
<i>Paralysis of Scapulothoracic Muscles</i>	407
<i>Old Dislocation of Acromioclavicular Joint</i>	409
<i>Old Dislocation of Sternoclavicular Joint</i>	412
Injuries to Brachial Plexus	413
<i>Location of Lesions</i>	413
<i>Lesions in Traction Paralysis</i>	415
<i>Treatment</i>	416
<i>Prognosis</i>	418
<i>Report of Personal Cases</i>	418
<i>Obstetric Paralysis</i>	419
Shoulder Region	424
<i>Paralysis of Deltoid Muscle</i>	424
<i>Recurrent Dislocation of Shoulder</i>	431
<i>Old Unreduced Dislocation of Shoulder</i>	432
Elbow Region	432
<i>Paralysis of Elbow Flexors</i>	432
<i>Paralysis of Triceps Muscle</i>	433
<i>Nerve Injuries at Elbow</i>	433
<i>Surgical Approaches at Elbow</i>	433
<i>Special Surgical Aspects</i>	434
<i>Rupture of Lower Tendon of Biceps</i>	435
<i>Tennis Elbow</i>	435
<i>Arthrodesis</i>	436
<i>Arthroplasty</i>	436
Forearm	437
<i>Dislocation of Head of Radius</i>	437

<i>Excision of Radial Head</i>	438
<i>Pronation and Supination</i>	439
<i>Synostosis Between Radius and Ulna</i>	439
<i>Malunion</i>	440
<i>Nonunion</i>	440
<i>Operations on Bones of Forearm</i>	441
<i>Malunited Colles' Fracture</i>	442

PART THREE

INJURIES AND INFECTIONS OF THE HAND

12. INJURIES OF THE HAND	449
Open Wounds	449
<i>General Treatment</i>	449
<i>Examination</i>	450
<i>Time Factor Between Accident and Operation</i>	450
<i>Anesthesia</i>	451
<i>Cleansing Skin</i>	451
<i>Débridement or Excision of Wound</i>	451
<i>Débrided or Surgically Clean Wounds</i>	452
<i>Refrain from Making Wound Worse</i>	454
<i>Cover Over All Vulnerable Parts and Close Wound</i>	454
<i>Sulfanilamide</i>	456
<i>Circulation</i>	456
<i>Prevention of Tetanus</i>	456
<i>Postoperative Care</i>	456
<i>Rest: Local and General</i>	457
<i>Late or Infected Wounds</i>	457
<i>Injuries of Nerves</i>	460
<i>Wounds of Joints</i>	460
<i>Primary Repair of Severed Tendons</i>	460
Special Types of Wounds	471
<i>Puncture Wounds</i>	471
<i>Contusions</i>	472
<i>Abrasions or Brush Burns</i>	472
<i>Hematoma</i>	472
<i>Effect of Vibrating Tools</i>	472
<i>Injuries from Porcelain Faucets</i>	472
<i>Injuries from Glass</i>	473
<i>Buzz-saw Injuries</i>	473
<i>Pulley and Belt Injuries</i>	473
<i>Injuries from Rollers or Hot Mangles</i>	473
<i>Indelible-pencil Wounds</i>	473
<i>Grease-gun Injuries</i>	474
<i>Foreign Bodies</i>	474

CONTENTS

xv

<i>Three Main Forms of Infection in Hand</i>	548
<i>Treatment of Infections</i>	564
Special Infections of Hand	571
<i>Tuberculosis</i>	571
<i>Syphilis</i>	580
<i>Tularemia</i>	581
<i>Anthrax</i>	582
<i>Glanders</i>	584
<i>Gonorrhea</i>	584
<i>Leishmaniasis</i>	585
<i>Milker's Granuloma</i>	586
<i>Fungoid Infections of Hand</i>	586
15. THE HAND IN INDUSTRY	596
Incidence of Injuries to Hands	596
Prophylaxis	598
Care of Injured	600
Permanent Disability	601
Workmen's Compensation	605
Rehabilitation	605

PART FOUR

OTHER CONDITIONS OF THE HAND

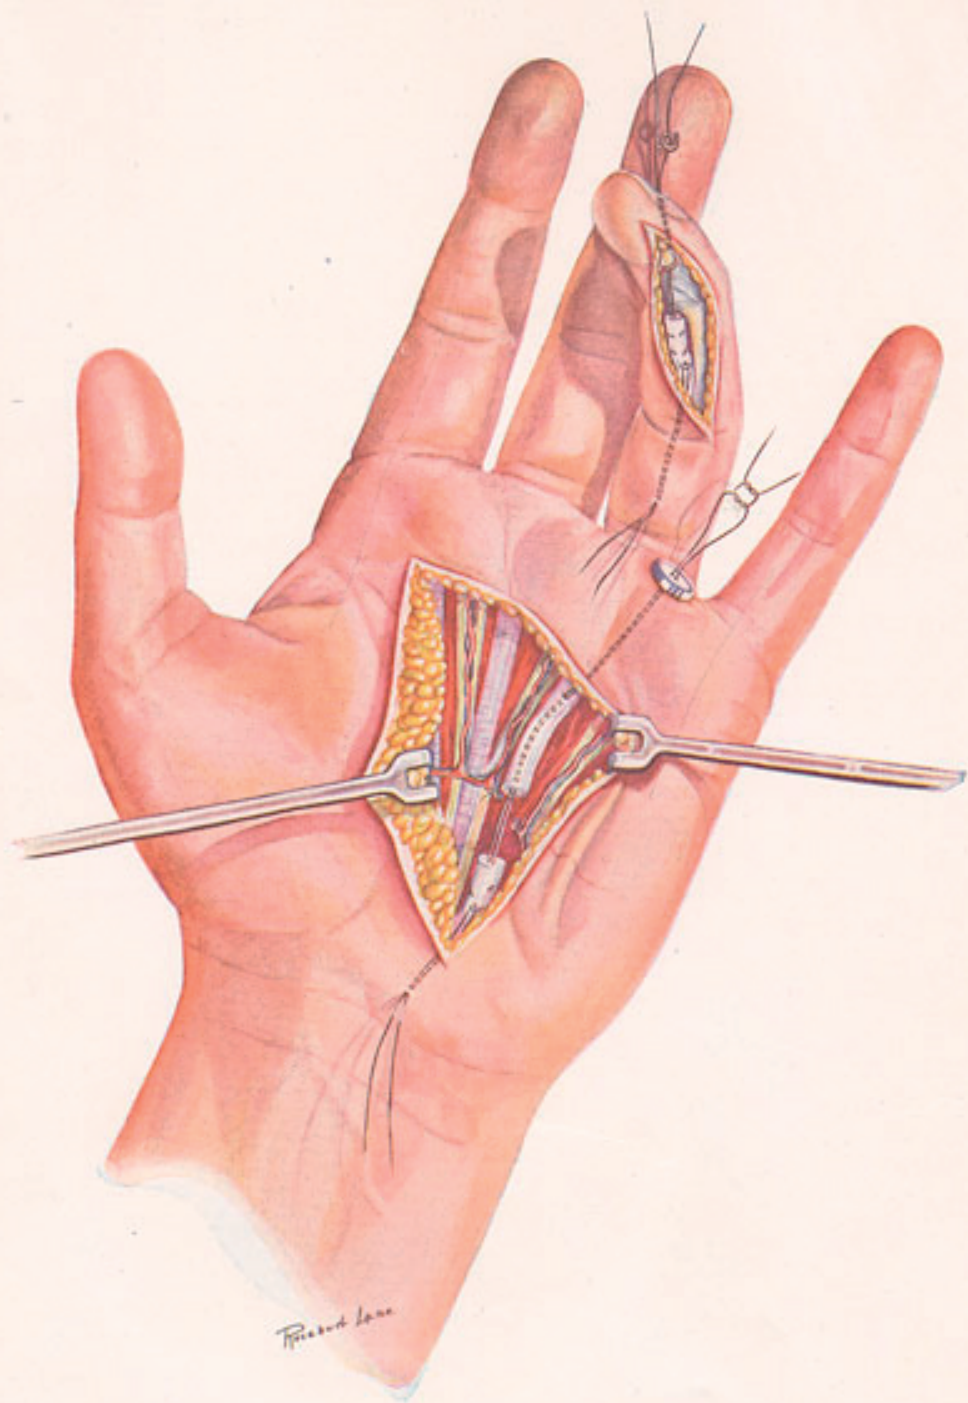

16. CONGENITAL DEFORMITIES	609
Occurrence and Classification	609
Etiology	610
<i>Heredity</i>	610
<i>Embryology</i>	615
<i>Twinning or Reduplication of Terminal Parts</i>	617
<i>Atavism</i>	618
<i>Effects of Disease or Changes in Utero</i>	619
<i>Acquired Deformities</i>	619
Patterns of Deformities	620
Nomenclature and Definitions	621
Congenital Elevation of Scapula	621
Defect of Radius	622
Defect of Ulna	624
Madelung's Deformity	625
Clinarthrosis or Deviation in Alignment of Joints	626
Congenital Dislocations	627
Synostoses	628
Cleft, Lobster Claw, and Mirror Hands	629
Polydactylism	633
Syndactylism	634

Ectromelus and Ectrodactyly	639
Brachydactylia	640
Hyperphalangism	641
Symphalangism	641
Arachnodactylia	641
Annular Grooves and Congenital Amputations	641
Dyschondroplasia	642
Megalodactylia	643
Angiomata	643
Knuckle Pads	644
Treatment in General of Congenital Deformities	644
17. VASOMOTOR AND TROPHIC CONDITIONS	648
Introduction	648
<i>Congeaed Hand from Cicatrix</i>	648
<i>Effect of Lowered Vascularity</i>	648
<i>Trophic Effects from Injury of a Somatic Nerve</i>	649
Traumatic Vasospasm and Nerve Dysfunction	650
<i>Physiology</i>	651
<i>Occurrence</i>	653
<i>Symptoms of Dystrophies in General</i>	654
<i>Causalgia</i>	656
Sudeck's Posttraumatic Osteoporosis and Allied Posttraumatic Reflex	
Dystrophies	657
<i>Osteoporosis</i>	657
Paralysis with Contractures	658
Raynaud's Phenomenon	658
Painful Amputation Stumps	659
Treatment of Posttraumatic Dystrophies and Vasospasm in General	660
<i>Prophylaxis</i>	660
<i>Treatment When Established</i>	660
18. TUMORS OF THE HAND, by L. D. Howard, Jr., M.D.	666
Introduction	666
Epidermoid Cysts	666
Sebaceous Cysts	668
Mucus Cysts	668
Peripheral-nerve Tumors	669
Fibrillary Neuromas	669
Nerve-sheath Tumors	672
Muscle Tumors	673
Fibromas	674
Lipomas	675
Xanthomas or Xanthomatic Tumors	676
Tendon-sheath Tumors	680
Ganglia	682
Bone Tumors	686
<i>Cysts of Bone</i>	686
<i>Exostosis</i>	687

CONTENTS

xvii

<i>Xanthoma</i>	689
<i>Chondroma or Enchondroma</i>	689
<i>Osteochondroma</i>	691
<i>Malignant Tumors</i>	691
<i>Metastatic Tumors</i>	693
Carcinoma of Hand	693
Carcinoma of Nail	697
Kaposi's Sarcoma	697
Beck's Sarcoid	699
