# Contents

---

<b>1 General Considerations . . . . .</b>	<b>1</b>
The Route to the Surgeon . . . . .	1
Diagnosis and Assessment . . . . .	2
Course of the Disease . . . . .	4
Communication . . . . .	4
Assessment of the Results of Surgery . . . . .	4
Bacterial Infection and Septic Arthritis . . . . .	5
Corticosteroids . . . . .	6
Bed Rest . . . . .	6
Psychological Factors . . . . .	7
Physiotherapy . . . . .	7
Surgical Trends . . . . .	7
<b>2 Aetiology and Pathology . . . . .</b>	<b>9</b>
Aetiology . . . . .	9
The Causes of Rheumatoid Arthritis . . . . .	9
Disease Mechanisms . . . . .	10
The Nature of the Connective Tissue Lesion . . . . .	11
Cartilage and Bone Damage . . . . .	13
Vasculitis . . . . .	13
A General Disease Mechanism . . . . .	14
Targets for Drug Action . . . . .	14
Rationale for Synovectomy . . . . .	14
Synovitis Following Arthroplasty . . . . .	15
Synovial Biopsy . . . . .	15
Tissue Sampling . . . . .	15
Synovial Fluid Examination . . . . .	16
Lesions in Other Tissues . . . . .	16
Cardiac Involvement . . . . .	17

Associated Pathology . . . . .	17
Seronegative Spondarthropathies . . . . .	17
Systemic Lupus Erythematosus . . . . .	17
<b>3 Selection . . . . .</b>	<b>19</b>
Assessment of the Specific Problem . . . . .	20
Surgical Selection . . . . .	20
Indications for Surgery . . . . .	20
Contraindications to Surgery . . . . .	21
Which Operation? . . . . .	21
How Soon? . . . . .	22
What Order? . . . . .	22
How Many? . . . . .	23
Recording a Decision . . . . .	23
<b>4 The Link with Medical Management . . . . .</b>	<b>25</b>
The Physician's Plan of Care . . . . .	25
Prognosis . . . . .	26
Physical Activity . . . . .	26
Local vs. General Measures . . . . .	26
Aspiration and Lavage . . . . .	26
Injection . . . . .	26
Radionuclide Injection . . . . .	28
Systemic Drug Therapy . . . . .	28
Systemic Features and Associated Medical Problems . . . . .	32
Anaemia . . . . .	33
Gastrointestinal . . . . .	33
Osteopenia . . . . .	33
Neuropathy . . . . .	34
Cervical Myelopathy . . . . .	34
Haemodynamic and Renal . . . . .	34
Skin . . . . .	35
Respiratory . . . . .	35
Sepsis . . . . .	36
Rheumatological Emergencies . . . . .	36
Children with Rheumatic Disease . . . . .	36
Summary . . . . .	36
<b>5 Perioperative Care . . . . .</b>	<b>39</b>
Preoperative Assessment . . . . .	39
Preoperative Investigation . . . . .	41
Blood Tests . . . . .	41
Radiology . . . . .	42
The Immediate Preoperative Period . . . . .	42
Drugs in the Perioperative Period . . . . .	46
Care During Surgery . . . . .	47
Postoperative Care . . . . .	48
Splints . . . . .	49
<b>6 Synovectomy . . . . .</b>	<b>53</b>
Damage Produced by Synovitis . . . . .	53
Treatments of Synovitis and Synovial Hypertrophy . . . . .	55
Simple Physical Means . . . . .	56
Antirheumatic Drugs . . . . .	56

Intra-articular Cytotoxic Agents . . . . .	57
Physical Agents . . . . .	57
Osteotomy . . . . .	58
Surgical Synovectomy . . . . .	58
The Shoulder . . . . .	58
The Elbow . . . . .	59
The Wrist . . . . .	59
Metacarpophalangeal and Proximal Interphalangeal Joints . . . . .	59
The Hip . . . . .	59
The Knee . . . . .	59
Metatarsophalangeal Joints . . . . .	60
The Ankle . . . . .	60
Tendons . . . . .	60
Recurrent Synovitis after Synovectomy . . . . .	60
Children . . . . .	60
Seronegative Arthropathies . . . . .	61
Conclusion . . . . .	61
<b>7 Osteotomy . . . . .</b>	<b>63</b>
Jaw . . . . .	63
Shoulder . . . . .	64
Metacarpophalangeal Joints . . . . .	64
Hip . . . . .	64
Knee . . . . .	65
Ankle . . . . .	67
Foot . . . . .	68
Action of Osteotomy . . . . .	68
Operative Technique . . . . .	70
Internal Fixation . . . . .	70
Wedges . . . . .	71
Total Replacement or Osteotomy? . . . . .	71
<b>8 Arthroplasty . . . . .</b>	<b>75</b>
Excision Arthroplasty . . . . .	75
The Lateral and Medial Ends of the Clavicle . . . . .	75
Excision Arthroplasty Following Failed Total Joint Replacement . . . . .	78
Soft Tissue Interposition Arthroplasty . . . . .	78
Replacement by Massive Cadaveric Grafts . . . . .	78
Replacement by Prosthesis . . . . .	79
Partial . . . . .	79
Total . . . . .	79
Total Prosthetic Joint Replacement After Osteotomy . . . . .	80
Anatomical Placement . . . . .	80
Complications of Prosthetic Joint Replacement . . . . .	80
Failure of Total Joint Replacement . . . . .	81
Infection . . . . .	82
Urinary Tract Problems . . . . .	83
Skin Flap Necrosis . . . . .	83
Metal Sensitivity and Toxicity . . . . .	83
Cement Toxicity . . . . .	83
Loosening and its Diagnosis . . . . .	84
Material Problems . . . . .	86
Design of Cementless Implants . . . . .	87
Dislocation . . . . .	90
Fat Embolus . . . . .	91

Fractures Around Prostheses . . . . .	91
Surgery After Failure of a Prosthesis . . . . .	92
Revision . . . . .	92
Excision Arthroplasty . . . . .	94
Arthrodesis . . . . .	94
<b>9 Arthrodesis . . . . .</b>	<b>97</b>
Cervical Spine . . . . .	99
Shoulder . . . . .	99
Elbow . . . . .	99
Wrist . . . . .	99
Carpometacarpal Joint of the Thumb . . . . .	99
Metacarpophalangeal Joint of the Thumb . . . . .	99
Interphalangeal Joint of the Thumb . . . . .	99
Proximal Interphalangeal Joints of the Fingers . . . . .	100
Distal Interphalangeal Joints of the Fingers . . . . .	100
The Hip . . . . .	100
The Knee . . . . .	100
The Ankle . . . . .	101
Subtaloid Joint . . . . .	101
Midtarsal Joints . . . . .	102
Metatarsophalangeal Joints . . . . .	103
Proximal Interphalangeal Joints of the Toes . . . . .	103
Distal Interphalangeal Joints of the Toes . . . . .	103
<b>10 The Spine . . . . .</b>	<b>105</b>
Pathology . . . . .	105
Clinical Features . . . . .	108
Imaging of the Rheumatoid Spine . . . . .	108
Conservative Management . . . . .	109
Psychological Support . . . . .	109
Surgical Management . . . . .	110
Dorsal and Lumbar Spine . . . . .	112
Ankylosing Spondylitis . . . . .	113
Spinal Osteotomy . . . . .	114
<b>11 The Shoulder . . . . .</b>	<b>117</b>
Progression of Joint Damage . . . . .	117
Rotator Cuff Impingement . . . . .	118
Acromioclavicular Joint . . . . .	118
Sternoclavicular Joint . . . . .	119
Glenohumeral Joint . . . . .	119
Shoulder Synovectomy . . . . .	119
Osteotomy . . . . .	120
Arthrodesis . . . . .	123
Glenoidectomy . . . . .	123
Interposition Arthroplasty . . . . .	123
Hemiarthroplasty . . . . .	124
Total Shoulder Replacement . . . . .	124
Conclusion . . . . .	128
<b>12 The Elbow . . . . .</b>	<b>131</b>
Extra-articular Disease . . . . .	131
Fasciitis . . . . .	131

Tendinitis . . . . .	131
Bursitis . . . . .	132
Nerve Compressions . . . . .	132
<b>Intra-articular Disease . . . . .</b>	<b>132</b>
Synovitis . . . . .	132
Erosive Disease with Instability . . . . .	133
Arthrodesis . . . . .	133
Arthroplasty . . . . .	133
Excision Arthroplasty . . . . .	133
Fascial or Skin Arthroplasty . . . . .	134
Silicone Rubber Interposition Arthroplasty . . . . .	134
Prosthetic Replacement . . . . .	134
Conclusion . . . . .	137
<b>13 The Wrist . . . . .</b>	<b>139</b>
The Carpal Tunnel . . . . .	139
The Long Flexor Tendons . . . . .	140
The Long Extensor Tendons . . . . .	140
De Quervain's Disease . . . . .	141
Deformity at the Wrist . . . . .	142
The Z Deformity . . . . .	142
Volar Subluxation of the Wrist . . . . .	143
Articular Pain . . . . .	143
Surgical Options . . . . .	143
