

The Shoulder

ROCKWOOD • MATSEN

VOLUME 1

Contents

VOLUME 1

CHAPTER 1

Developmental Anatomy of the Shoulder and Anatomy of the Glenohumeral Joint	1
--	----------

*Stephen J. O'Brien, M.D. • Steven P. Arnoczyk, D.V.M.
Russell F. Warren, M.D. • S. Robert Rozbruch, B.A.*

Comparative Anatomy	1
Embryology	6
Adult Glenohumeral Joint	12
Microvasculature	28
Innervation of the Glenohumeral Joint	30

CHAPTER 2

Gross Anatomy of the Shoulder	34
--	-----------

Christopher M. Jobe, M.D.

Bones and Joints	39
Muscles	49
Nerves	66
Blood Vessels	76
Bursae, Compartments, and Potential Spaces	83
Skin	89

CHAPTER 3

Congenital Anomalies of the Shoulder	98
---	-----------

Virchel E. Wood, M.D. • Leonard Marchinski, M.D.

Bony Abnormalities	99
Muscular Abnormalities	124
Neurovascular Abnormalities Associated with Congenital Anomalies ...	132

CHAPTER 4

Clinical Evaluation of Shoulder Problems	149
---	------------

Richard J. Hawkins, M.D. • Desmond J. Bokor, M.D.

History	149
Physical Examination	153

Injection Techniques	174
Cervical Spine Examination	174
Cervical Spine and the Shoulder	176
Further Investigative Procedures	177
Conclusions	177

CHAPTER 5**X-ray Evaluation of Shoulder Problems** 178

*Charles A. Rockwood, Jr., M.D. • Elizabeth A. Szalay, M.D. • Ralph J. Curtis, Jr., M.D.
D. Christopher Young, M.D. • Stephen P. Kay, M.D.*

Disorders of the Glenohumeral Joint	178
Fractures of the Shaft of the Clavicle	189
Disorders of the Acromioclavicular Joint and Distal Clavicle	189
Disorders of the Sternoclavicular Joint and Medial Clavicle	193
Evaluation of the Impingement Syndrome and the Rotator Cuff	196
Evaluation of Scapular Injuries	200
Evaluation of Calcific Tendinitis	200
Evaluation of Biceps Tendinitis	200
Tumors and Inflammatory Problems	200

CHAPTER 6**Biomechanics of the Shoulder** 208

Bernard F. Morrey, M.D. • Kai-Nan An, Ph.D.

The Shoulder Complex	208
Glenohumeral and Scapulothoracic Joint Motion	213
Shoulder Motion	218
Constraints	226
Muscle and Joint Forces	234

CHAPTER 7**Anesthesia for Shoulder Procedures** 246

L. Brian Ready, M.D.

Preoperative Considerations	246
Intraoperative Considerations	248
Choice of Anesthetics—Regional Versus General	249
Techniques for Regional Anesthesia	249
Special Considerations	255
Postoperative Anesthetic Care	255
Postoperative Pain Management	256
Summary	256

CHAPTER 8**Shoulder Arthroscopy** 258

David W. Altchek, M.D. • Russell F. Warren, M.D. • Michael J. Skyhar, M.D.

History	258
Arthroscopic Anatomy of the Glenohumeral Joint and Subacromial Space	258

Intra-articular Anatomy	259
Indications	262
Technique	264
Anthroscopic Technique	266
Arthroscopic Procedures for the Shoulder	268
Results	276

CHAPTER 9

Fractures of the Proximal Humerus	278
--	-----

Louis U. Bigliani, M.D.

Anatomy	279
Classification	281
Incidence	284
Mechanism of Injury	284
Clinical Presentation	285
Differential Diagnosis	286
Radiographic Evaluation	286
Complications	289
Methods of Treatment	291
Surgical Approaches	305
Author's Preferred Method of Treatment	309

CHAPTER 10

The Scapula	335
--------------------------	-----

Kenneth P. Butters, M.D.

Anatomy	335
Classification of Fractures of the Scapula	336
Clinical Presentation	338
Associated Injuries and Complications	338
Differential Diagnosis	339
Types of Fractures and Methods of Treatment	343
Results of Treatment	359
Author's Preferred Method of Treatment	360
Other Disorders	361

CHAPTER 11

Fractures of the Clavicle	367
--	-----

Edward V. Craig, M.D.

Historical Review	367
Anatomy	368
Function of the Clavicle	370
Classification of Clavicular Fractures	372
Mechanism of Injury	376
Clinical Presentation	377
X-ray Evaluation	383
Differential Diagnosis	386
Complications	387

Treatment	392
Postoperative Care	397
Author's Preferred Method of Treatment	398

CHAPTER 12

Disorders of the Acromioclavicular Joint 413

Charles A. Rockwood, Jr., M.D. • D. Christopher Young, M.D.

Historical Review	413
Surgical Anatomy	413
Mechanism of Injury	420
Classification of Injury	422
Incidence of Injury	425
Signs and Symptoms of Injury	425
X-ray Evaluation	426
Treatment of Injuries	434
Authors' Preferred Method of Treatment of Injuries	447
Prognosis	463
Complications of Injuries to the Acromioclavicular Joint	463
Degenerative Arthritis of the Acromioclavicular Joint	467
Rheumatoid Arthritis of the Acromioclavicular Joint	467
Septic Arthritis of the Acromioclavicular Joint	468
Cysts of the Acromioclavicular Joint	468

CHAPTER 13

Disorders of the Sternoclavicular Joint 477

Charles A. Rockwood, Jr., M.D.

Historical Review	477
Surgical Anatomy	477
Mechanism of Injury	483
Classification of Problems of the Sternoclavicular Joint	486
Incidence of Injury to the Sternoclavicular Joint	489
Signs and Symptoms of Injuries to the Sternoclavicular Joint	491
X-ray Findings of Injury to the Sternoclavicular Joint	491
Treatment	495
Author's Preferred Method of Treatment	507
Complications of Injuries to the Sternoclavicular Joint	517
Complications of Operative Procedures	519

CHAPTER 14

Anterior Glenohumeral Instability 526

Frederick A. Matsen III, M.D. • Steven C. Thomas, M.D. • Charles A. Rockwood, Jr., M.D.

Historical Review	526
Anatomy of the Glenohumeral Joint	531
Classification of Glenohumeral Instability	541
Incidence and Mechanism of Injury	543
Clinical Presentation	544

Radiographic and Laboratory Evaluation	551
Complications of Injury	562
Differential Diagnosis	569
Treatment	569

VOLUME 2**CHAPTER 15**

Subacromial Impingement	623
--------------------------------------	-----

Frederick A. Matsen III, M.D. • Craig T. Arntz, M.D.

Definition and Historical Review	623
Anatomy	624
Classification	626
Incidence and Mechanisms of Injury	626
Clinical Presentation	629
Cuff Imaging Techniques	629
Complications	632
Differential Diagnosis	632
Methods of Treatment	633
Authors' Preferred Method of Treatment	636

CHAPTER 16

Rotator Cuff Tendon Failure	647
--	-----

Frederick A. Matsen III, M.D. • Craig T. Arntz, M.D.

Historical Review	647
Anatomy and Function	647
Classification of Injury	650
Incidence and Mechanism of Injury	650
Associated Pathology	654
Clinical Presentation	654
Imaging Evaluation	656
Complications	660
Differential Diagnosis	661
Methods of Treatment	662
Results	664
Authors' Preferred Method of Treatment	665

CHAPTER 17

Degenerative and Arthritic Problems of the Glenohumeral Joint	678
--	-----

Robert H. Cofield, M.D.

Historical Review	678
Surgical Indications	686
Disease Characteristics	687
Clinical Evaluation	701

Methods of Surgical Treatment	703
Operative Techniques	718
Postoperative Rehabilitation	735
Results	736
Complications	740
Revision Surgery	742

CHAPTER 18

Neurological Problems	750
------------------------------------	------------

Robert D. Leffert, M.D.

Clinical Presentation	751
X-ray and Laboratory Evaluation	751
Pathology and Classification	755
Methods of Treatment of Kinesiological Abnormalities of the Shoulder	758

CHAPTER 19

Calcifying Tendinitis	774
------------------------------------	------------

Hans K. Uhthoff, M.D. • Kiriti Sarkar, M.D.

Historical Review	774
Anatomy	774
Incidence	775
Classification	776
Pathology	776
Pathogenesis	778
Clinical Presentation	781
Radiology	783
Laboratory Investigations	785
Complications	785
Differential Diagnosis	785
Treatment	785
Authors' Preferred Method of Treatment	787
Concluding Remarks	788

CHAPTER 20

The Biceps Tendon	791
--------------------------------	------------

Wayne Z. Burkhead, Jr., M.D.

Historical Review	791
Anatomy	793
Osseous Pathoanatomy	799
Function of the Biceps Tendon	805
Classification of Bicipital Lesions	808
Incidence	810
Etiology	811
Prevention	811
Clinical Presentation of Bicipital Lesions	812
Associated Conditions	816

Diagnostic Tests	816
Complications	820
Differential Diagnosis	821
Treatment of Bicipital Lesions: Review of Conservative Treatment	824
Results of Nonoperative Treatment of Biceps Rupture	824
Review of Operative Treatment	824
Author's Preferred Methods of Treatment	827
Summary	832

CHAPTER 21

Frozen Shoulder 837

J. Patrick Murnaghan, M.D.

Historical Review	837
Anatomy	839
Pathology	840
Diagnostic Criteria	841
Classification	842
Incidence	843
Mechanism of Injury	844
Predisposing Factors	844
Clinical Examination	845
Clinical Presentation	846
Investigations	849
Complications	851
Differential Diagnosis	851
Treatment	853
Author's Preferred Method of Treatment	858

CHAPTER 22

Muscle Ruptures Affecting the Shoulder Girdle 863

Michael A. Caughey, M.B. • Peter Welsh, M.B.

General Principles of Rupture of the Musculotendinous Unit	863
Rupture of the Pectoralis Major	864
Rupture of the Deltoid	866
Rupture of the Triceps	867
Rupture of the Biceps	869
Rupture of the Serratus Anterior	871
Rupture of the Coracobrachialis	871
Rupture of the Subscapularis	872
Conclusion	872

CHAPTER 23

Tumors and Related Conditions 874

Ernest U. Conrad III, M.D.

Historical Review	874
Anatomy	875
Staging and Classification of Tumors	877

Incidence of Neoplasms	892
Clinical Presentation	895
X-ray and Laboratory Evaluation	897
Complications of Tumors	898
Differential Diagnosis	899
Biopsy, Resections, Reconstructions, and the Management of Specific Lesions	901
Author's Preferred Methods of Treatment	913

CHAPTER 24**Sepsis of the Shoulder: Molecular Mechanisms and Pathogenesis 920***Anthony G. Gristina, M.D. • Gordon Kammire, M.D. • Anna Voytek, M.D.**Lawrence X. Webb, M.D.*

History	920
Septic Anatomy of the Shoulder	921
Classification	923
Incidence and Pathogenic Mechanisms of Septic Arthritis and Osteomyelitis	924
Microbial Adhesion and Intra-articular Sepsis	926
Bacterial Pathogens	928
Clinical Presentation	929
Laboratory and X-ray Evaluation	930
Complications	932
Treatment	932
Authors' Preferred Method of Treatment	936

CHAPTER 25**Amputations and Prosthetic Replacement 940***Robert L. Romano, M.D. • Ernest M. Burgess, M.D.*

Types of Amputations	940
Precipitating Factors	941
Specific Procedures	941
Prosthetic Rehabilitation	952

CHAPTER 26**The Shoulder in Sports 961***Frank W. Jobe, M.D. • James E. Tibone, M.D. • Christopher M. Jobe, M.D.**Ronald S. Kvitne, M.D.*

Biomechanics of the Throwing Shoulder	961
Impingement and Instability in the Athlete	963
Posterior Shoulder Problems in the Athlete	983
Acromioclavicular Joint Problems	986
Neurological Problems	987
Vascular Problems	987
The Shoulder in Swimming	988
Conclusion	989

CHAPTER 27**Fractures and Dislocations of the Shoulder in Children** 991*Ralph J. Curtis, Jr., M.D. • Charles A. Rockwood, Jr., M.D.*

Fractures of the Proximal Humerus	991
Glenohumeral Subluxation and Dislocation	1002
Fractures of the Clavicle and Injuries to the Sternoclavicular and Acromioclavicular Joints	1007
Scapula	1025

CHAPTER 28**Special Problems with the Child's Shoulder** 1033*Kaye E. Wilkins, M.D.*

Brachial Plexus Injuries	1033
Torticollis	1055
The Shoulder in Arthrogryposis	1072
Bone and Joint Infections	1074

CHAPTER 29**Occupational Shoulder Disorders** 1088*James V. Luck, Jr., M.D. • Gunnar B. J. Andersson, M.D., Ph.D.*

Occupational Cervicobrachial Disorder	1088
Shoulder Tendinitis	1093
Degenerative Arthritis	1095
Prevention	1095
Treatment	1100
Evaluation of Impairment	1103

Index	i
